

13th Nordic Nutrition Conference

SPONSORSHIP & EXHIBITION OPPORTUNITIES

13th Nordic Nutrition Conference 2024
17th to 19th of June, 2024

Join us at the 13th Nordic Nutrition Conference 2024 for a unique event. The first on-site nutrition conference in the Nordic countries for eight years!

The Nordic Nutrition Conference has been held in one of the Nordic countries since the 1960ies, every 4th year alternating in the Nordic countries. We expect about 500 participants from all areas of nutrition research, especially welcoming early career researchers. The conference will promote the advancement in food and nutrition science, research, and development through Nordic collaboration.

Anticipating 500 diverse nutrition researchers, especially welcoming early career participants, our conference will drive Nordic collaboration for nutrition science progress.

The conference takes place from June 17th to June 19th 2024, in Bergen, Norway, hosted by the Norwegian Nutrition Society (NSE), with the Institute of Marine Research and the University of Bergen as co-hosts, and co-organized by all the Nordic countries. Bringing the conference to Bergen will be an extraordinary showcase of Nordic cooperation.

The conference includes high-level plenary sessions, several parallel sessions, debates, network activities, and social and cultural events. It is an excellent opportunity for researchers, policymakers, businesses, and students to exchange knowledge and meet and connect across the Nordic countries.

On behalf of the Organizing committee of the NNC2024, we hereby offer your company the chance to participate at this conference as it will be an excellent opportunity to expose your company brand and products to a target audience.

The conference will take place at Grieghallen where the exhibition area will be in proximity to the plenary and parallel conference rooms. Lunches, coffee breaks and a scientific poster exhibition will be held in the exhibition area. This will offer excellent opportunities for both exhibitor interactions and delegate mingling in a compact and modern setting.

The Scientific Committee will present the program early autumn 2023, consisting of keynote talks, scientific symposia, oral presentations, and poster presentations. Further, we will have panel debates on hot topics in nutrition.

The Organising Committee is dedicated to do their outmost to ensure that your investment at the NNC2024 will be as fruitful as possible, ensuring an effective marketplace for your company and its products. On the next pages you will find the sponsorship and exhibition packages available. The members of the Organising and Scientific Committees and contact information are listed on nnc2024.org.

UNIVERSITY
OF BERGEN

NNC 2024

13th Nordic Nutrition Conference

The commercial exhibition holds significant importance within NNC2024. It functions as a vital platform that encourages interaction between scientists and industry. This interaction paves the way for valuable networking opportunities and allows students to connect with potential employers, thereby exploring future career avenues.

The guidelines governing the commercial exhibition closely resonate with those of the [Nordic Nutrition Recommendations 2023](#). Exhibitions that spotlight wholesome choices and are in harmony with scientifically endorsed dietary patterns will be actively promoted and given preference.

The Sponsorship and Exhibition is coordinated by the officially appointed PCO for the NNC2024, APRIL Congress PCO, acting as Agent of Contract on behalf of the above-mentioned conference hosts. All questions and orders will be handled individually and confidentially.

Please see our Sponsorship & Exhibition Packages on the last page. If you are interested in becoming a sponsor or exhibitor, then please send an e-mail to harald@april.no. Sponsorship / Exhibition space will be allocated on a first come, first served basis, so we welcome feedback before September 15th, 2023 to avoid disappointment.
